

Duration of The Course

This course includes 90 academic hours in 18 weekly meetings.

Starting Date

Sunday September 22th 2019 (One meeting per week on Sundays 1800-2200)

Prerequisites

This course was developed for people with background in software development, and for people without any background that successfully pass our compatibility exam with a mark higher than 60. The compatibility exam is free and it can be taken online.

Course Location

The course takes place in a meeting room in WeWork (Herzliya). It is possible to participate online.

Training Methodologies

The entire course will be captured on video in order to allow the students going over the material in between the meetings. All topics will be delivered using detailed slides that we continuously update in accordance with the changes in the Python programming language. The students will receive soft copy of the slides. Each meeting is broadcasted online using a platform that allows remote participation. We strongly recommend watching the video at <https://youtu.be/ITHzS-1f0zo>. This video what turns our training into premium one.

The Number of Students

The number of students is limited to 14 (maximum) in order to ensure the quality of our service. The eye contact between the lecturer and the students together with the personal attitude allow us to provide premium training service. The general feeling in our public courses is as if they were private lessons.

About the Lecturer

The lecturer of this course is Haim Michael. Haim Michael has more than 24 years of experience in software development and in delivering training services to software developers in companies all over the world, in the army and in Israeli academic institutions. Haim Michael has more than 10 years of experience in Python. More information about Haim Michael can be found in his blog at <http://blog.lifemichael.com>.

About life michael

This course is delivered by life michael (part of Zindell Technologies, Ltd), that specializes in the delivery of premium training services to software developers in high tech companies. More information about life michael can be found at www.lifemichael.com.

The Course Syllabus

You can find the syllabus (detailed plan) of this course at <http://tinyurl.com/lifemichaelpython>. You can find a video that overviews this syllabus at <https://youtu.be/mNLI6q-xoQ>.

Students Feedback

You can find feedbacks we received from our students during the years at <https://youtu.be/mNLI6q-xoQ>

Course Registration

You can register online at <http://python.course.lifemichael.com>. The fee is ₪6940. You can split the sum up to 12 equal payments. Students and ex-Students of Haim Michael get a %15 discount.
